

TRAINING THE TRAINERS

A UNIQUE OPPORTUNITY FOR EUROPEAN PROFESSIONALS IN
THE FIELD OF COUNTER RADICALIZATION

IN THIS ISSUE

A Unique Opportunity

**WHAT ARE J-SAFE,
MINDB4ACT AND
JPCOOPS?**

**WHAT IS A TRAINING
OF TRAINERS?**

**WHAT ARE THE
BENEFITS OF
PARTICIPATING?**

**WHERE IS THE TOT BE
HELD?**

We know professionals like you are always looking for ways to build knowledge in their field of expertise to be on top of their game. For this reason, in order to offer you a compelling experience that will allow you to grow as a professional, the three European projects J-SAFE, MINDB4ACT and JPCOOPS have decided to join forces. We aim to deliver a comprehensive training catalog covering different topics on radicalization prevention and investigation. The material will be delivered over 4 day Training of Trainers courses in Italy, Germany, Spain, Bulgaria and Malta.

WHAT ARE J-SAFE, MINDB4ACT AND JPCOOPS?

J-SAFE is a project co-funded by the DG Justice of the European Commission that supports judges and prosecutors in pronouncing informed decision sentencing on cases of radicalization throughout all stages of the procedure, through the use of the most appropriate risk assessment tools. It also supports prison and probation staff in the execution of sentences through a coherent set of programmes and an integrated flow of information, parallel to the European Criminal Records Information System, among multilevel and multiagency stakeholders. Visit jsafeproject.eu for more information on this project. Project Leader: Italian Ministry of Justice.

MINDb4ACT is a project co-funded by the European Union's Horizon 2020 Research and Innovation Programme that will contribute to shaping an international community of security experts and first-line professionals in order to meet the challenges and vulnerabilities of a globalised European and international society. Through the Living Lab framework, MINDb4ACT will collectively reassess individual, local, national, and multi-national approaches towards the comprehension, identification and prevention of violent radicalisation. Visit mindb4act.eu for more information on this project. Project Leader: Elcano, Spain.

JPCOOPS is a project co-funded by the DG Justice of the European Commission, that tackles existing gaps in counter-radicalization policies and practices through cross-border cooperation of training providers. This helps strengthen and institutionalize training courses on judicial and police cooperation within a public-private framework, considering up-scalability and the principle of conferral. Visit jpcoopsproject.eu for more information on this project. Project Leader: University of Malta.

WHAT IS A TRAINING OF TRAINERS?

A Training of the Trainers (ToT) is a 4-day face-to-face training course entirely in English, with the purpose of giving the participants the tools and knowledge they need in order to replicate the course in their own country or with any audience they want. This means that those participants interested in organizing a 1-day training course in their own country and in their own language will have the full assistance of the JPCOOPS project.

WHAT IS THE PROGRAMME?

- Radicalization as a relational phenomenon - To understand the complexity of radical phenomena through a multi-disciplinary approach at the EU-level.
- Radicalization in Prison - To develop advanced and specialized competencies and abilities for LEAs, judges, prosecutors, Intel Agencies. Lawyers and vetted NGOs working in CT/CVE to identify different types of information within radical mechanisms, classify and transmit it within the procedural justice framework at MS and EU levels as part of the counter-radicalization measures.
- Legal Aspects of Preventive Procedures and Agency Attributions - To differentiate procedures, their applicability and agency attributions.
- Digital Forensics for the Prevention of Radicalisation - To improve know-how, competencies, and abilities of different LEAs, prison and justice operators to 1) detect cases of radicalization; 2) understand the dimension of the issue and solutions to deal with it; 3) integrate digital and cyber data into the mechanisms of observation of radicalization as part of new preventive and investigative models.
- Exit Strategies - To develop knowledge of the new models of exit strategies applied in several EU countries in case of radicalization, with a specific focus on the transition from prison to external life.
- Prevention and Management of Radicalization in Schools - To improve know-how, competencies, and abilities of school staff and local police in preventing violent radicalization in school and eventually address cases; improve teachers and school staff capability to raise students' awareness of radicalization.
- Early Intervention and Awareness at Local Level - To improve know-how, competencies, and abilities of operators to understand the phenomenon of radicalization; improve their capabilities in early detection; train operators on the multi-agency approach.

IS THE TOT FOR YOU?

YES, if you have a professional background which includes:

- Prison and probation management as a juvenile and/or adult prison guard,
- Intelligence officers and related staff active in prison environments,
- Probation officers, both for juveniles and adults,
- Prison educators,
- Judges,
- Prosecutors,
- NGOs and local welfare services specialized in rehabilitation and alternative measures to prisons,
- Prison and court experts (psychologists, criminologists, Middle-East experts, cultural mediators, etc.)

WHAT ARE THE BENEFITS OF PARTICIPATING?

- You will have the opportunity to live an enriching training experience in an international environment with professional fellows from across Europe.
- You will be part of an exclusive European network of trainers.
- You will be able to organize courses in your country in the framework of the JP-COOPS project. This means that the project will cover the cost of your course!

WHERE IS THE TOT BE HELD?

Training of Trainers in Rovigo, Italy - 23-27 March 2020

Training of Trainers in Munich, Germany - 20-24 April 2020

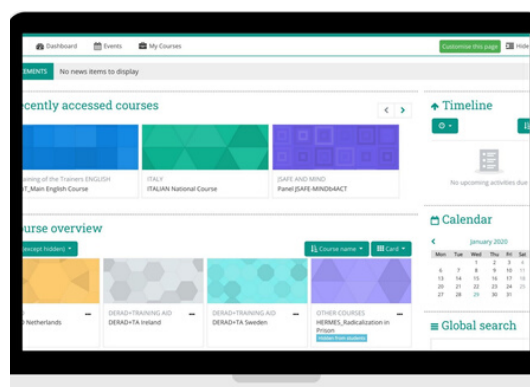

Training of Trainers in Madrid, Spain - 21-23 April 2020

Training of Trainers in Sofia, Bulgaria - 11-15 May 2020

Training of Trainers in Malta - May 2020 (Dates will be confirmed soon).

HOW TO ACCESS THE COURSE MATERIAL

- Course material will be available starting from March on the HERMES Platform. The HERMES e-learning platform makes the material available to the participants and allows them to use the platform in their cascade activities. HERMES is currently hosting more than 30 courses in more than 20 languages. 3000 users have been using the platform since 2017. A specific module on how to use the platform will be delivered before the ToTs in order to allow users to familiarize themselves with this tool before the course.

NOT EXACTLY THE USUAL COURSE

J-SAFE and **MINDb4ACT** have been developing Virtual Reality tools that will be presented and used during the training to give to participants a unique experience.

AND NOW THE QUESTION YOU HAVE BEEN WAITING FOR...HOW CAN YOU PARTICIPATE?

Go to training.agenforinternational.eu

Click on REGISTRATION on the menu

Step 1 – Send us an email confirming that you want to participate, with a small bio.

The screenshot shows a web form titled "Step 1 – Send us a Message" on a white background with a blue border. The form includes input fields for "First Name", "Last Name", "Email Address", and a larger "Message" field. A blue "SEND MESSAGE" button is at the bottom right. To the right of the form is an orange sidebar titled "Info" containing the text "J-SAFE", "MINDB4ACT", and "JPCOOPS".

Step 2 – Register! You will receive updates on this activity until the week we meet at the training.

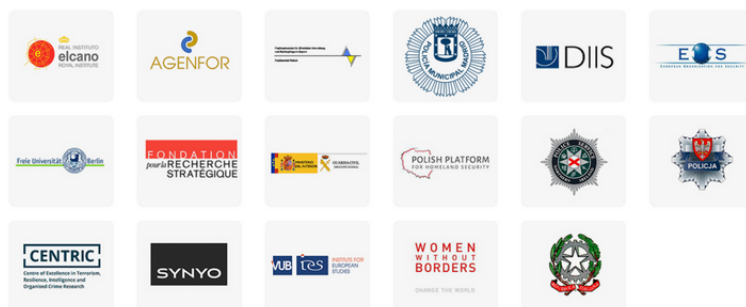

The screenshot shows a registration form titled "Step 2 – Register" on a blue background. Below the title is a message: "You will receive updated on this activity until the week we meet at the training." The form has input fields for "First Name", "Last Name", and "Email". A large orange "REGISTER" button is at the bottom.

THE PROJECTS

J-SAFE is implemented by:

MINDb4ACT is implemented by:

JPCOOPS is implemented by:

These projects have received funding from the European Union's Horizon 2020 Research and Innovation Programme and the DG Justice of the European Commission
