1st COURSE

INTERNATIONAL TERRORISM AND RADICALISATION

Period: May - November 2010

3rd DAY

- 6 months later, the trainees were asked to answer some questions in order to assess the impact of the training course
- The questions were aimed at understanding if they noticed any relevant improvement in the relationship among staff/inmates or staff/prison organization
- They were also asked to describe a concrete case when they had used the knowledge and the skills they acquired during the training

THE RESULT

About 70/90 of the answers (80%) were remarking relevant improvements in staff daily duties:

- *They felt much more aware of some aspects of inmates' culture, so it was much easier to establish positive relationships between staff and inmates*
- *Almost all the staff asked for further training on the same topic*
- *The more remarkable fact was that 2 police staff started to study Arabic to enhance their communication skills*

A DEEPLY WRONG INTERPRETATION

THEN:

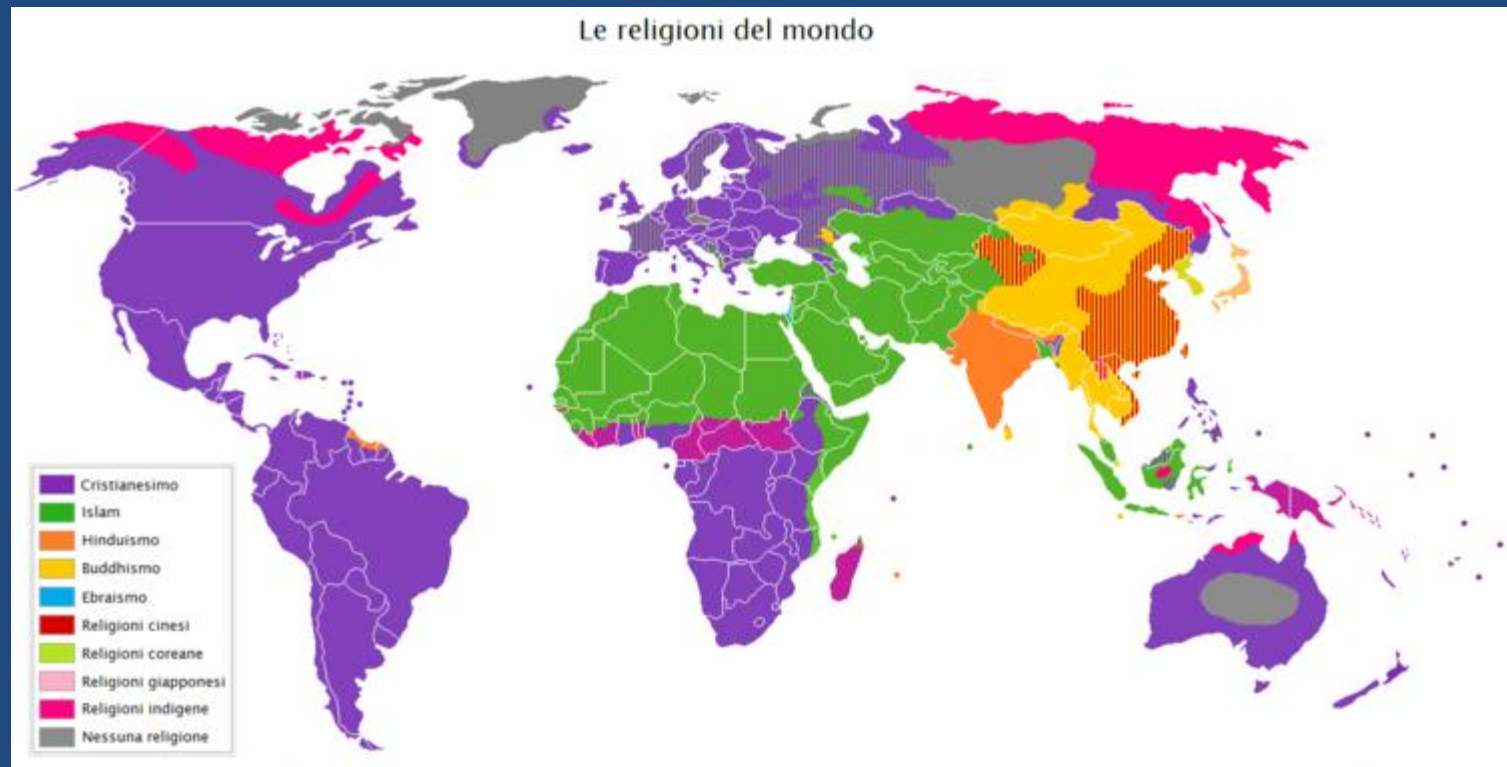

- WHY IN OUR COURSES WE TALK
ABOUT ISLAMIC CULTURE ?
