053
“Psychology”

➤ *initial training and advanced training of the personnel of the State Criminal and Executive Service of Ukraine*

Principles of practice-oriented training:

- ❑ focusing on improving professional competence, orienting on developing the skills needed while official duties performance;
- ❑ complexity, sequence, differentiation;
- ❑ balance of theoretical and practical components;
- ❑ formation of a conscious desire for self-development.

Measures that ensured implementing of the curricula during the pandemic (quarantine):

ZOOM, Skype,
Google Classroom,
Vseosvita,
MOODLE, etc.

electronic means of
communication
(Telegram, E-mail, WhatsApp,
groups on social networks, etc.)

distance tests and
examinations

Viber groups of the
departments

**DISTANCE
LEARNING**

electronic journals of
academic groups

teaching materials
for self-studying

syllabuses

links to personal
video conferences

VIDEO CONFERENCES:

demonstration of
3D interactive
models of penal
institutions

elimination of the
consequences of
emergencies in
penal institutions,
implementation of
active self-defense
techniques

conducting
various types of
forensic
examinations,
using the photo-
fit program

demonstration
of the
procedure for
applying
modern
methods of
work with
probation
subjects

FACULTY OF ADVANCED TRAINING

- ❑ interactive complexes of academic disciplines;
- ❑ ZOOM, Skype, Vseosvita, Google Classroom, MOODLE, video materials, electronic test and control tasks, case study tasks.

sometimes it logs out of
the MOODLE system

a password to log in to
the MOODLE system
can't be always
received

The main difficulties

there is not enough time
to study

there is not enough time
to pass the final control

FUNCTIONING OF THE ACADEMY UNDER THE QUARANTINE CONDITIONS

- the equipment for shooting educational videos was used;
- Internet at a speed of 100 Mbps. was connected;
- scientific and practical events were organized;
- scientific periodicals were published;
- proposals to the draft normative-legal acts were submitted;
- the Scientific and Creative Society of Cadets, Students and Young Scientists continued its functioning;
- the Academic and Scientific-Methodical Councils of the Academy continued their work;
- meetings with employers (stakeholders) took place.

Perspectives in the process of distance learning

improvement of didactic support (schematic representing of educational material, designing presentations with the use of video fragments of educational films, photos, etc.)

improvement of test tasks and materials for cadets and students' self-studying

development of the electronic textbooks and filling the scientific library with them

Perspectives in the process of distance learning

creation of a database of scientific publications according to the specifics of a particular academic discipline on the website of the Academy

organization of online round tables, conferences, seminars with the involvement of the stakeholders

improvement of practice programs taking into account distance learning technologies and regulations on dual education

Perspectives in the process of distance learning

the ability to use interactive means of combat and special training (electro-optical shooting range) in the educational process

Thank you for your attention!
